Subject: RE: Meeting to discuss WSPA proposal

Hi Laura,
Thank you...I will include Mario in future requests.

WSPA is proposing that we retain some form of the RECLAIM program for all facilities that have a future BARCT limit rather than creating bridge command-and-control limits. They are also proposing that those facilities that have met proposed BARCT limits be allowed to exit RECLAIM.

I think the primary discussion point would be to distinguish what changes would be significant enough to require the program to be evaluated under the EIP guidelines. More generally, we would also like to hear your thoughts about these fundamental changes to RECLAIM.

I'm sorry I'm not yet at liberty to share the WSPA proposal directly. (I realize that would help a lot but I haven't been give approval by our Legal staff.)

Regards,
Mike

Hi Mike,
I'll have Mario take a look and get back to you. In the future can you include Mario Zuniga on such requests?

Also, can South Coast provide the specific issues/aspects you would like to discuss?

Thanks!
Laura
